

Registering for White's Chapel Events with Realm

The registration process is designed to be as straightforward as possible. You can easily sign up for any class or event without needing to download the Realm app or create an account beforehand. Simply follow the registration link, and you can complete the entire process right there on the web.

Step one:

“Enter your email address to get started.” (this is on the right side directly under the image)

Click on **“Begin Registration”** (if the screen says “We know you...please sign in”, ignore that request and click on “Continue as guest” instead)

Step two:

“Who is attending this event?” – Enter your name and below that click on “Add another registrant” for each participant.

Click on **“Next”**

Step three:

On the left you will see all folks that are listed to attend the event. If email address and phone is being requested on the left under each registrant, you can ignore that as it is not necessary.

Click on **“Next: Review”**

Step four:

Click on **“Register”**

You will see a confirmation page that says “Thanks for registering! A receipt was emailed to seaxxxx@yaxxxx.com”

If you do not receive that email, please check your spam folder as it will most likely be in there.
