Columbarium & Memorial Garden Inscription

The niche's granite faceplate will be 12" X 12" in size. If the purchased niche is for two urns, there will be two names inscribed in the granite. It is important that the inscription be correct, so we are asking that you complete this form, of which we will keep in our files and return a copy to you for your records as well.

As noted in the Columbarium Rules, Policies and Regulations, all niche inscriptions will be of uniform size, and contain only the deceased's full name, date of birth and date of death. Middle initial is optional. If the person to be inurned has not passed away at this time, please leave date of death blank.

The format used for niche inscription will be as follows:

Example: James L. Smith
